COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Radio or Television Interference, Noise, Health and Safety, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential

Comment:

After reviewing your 3 routes for the transmissions lines, we elect the 3rd location near the railroad tracks. I currently live on the Hatchet Ranch phase II and have the existing power lines in view. We considered purchasing property beneath the current transmission lines because of the great terrain but were discouraged and acquired the property adjacent.

The 3rd location near the railroad tracks will impact the least amount of current property owners on the Hatchet Ranch. We moved here to retire and take in this great scenery. Your consideration will greatly be appreciated and I thank you for allowing us to voice my opinion.

I-263-001: Route Refinement > Calumet-Comanche (In Review)

Your email/letter/comment form has been received and your comment noted. Route refinement for the proposed project and mitigation measures will be addressed in the Environmental Impact Statement. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
